RETAIL GRINDER

The 1203 and 1403 models are the ideal solution everywhere that fast, reliable and uniform grinding is required.

Coffee stores with a large volume of business, supermarkets and roasting establishments value these coffee grinders highly for their exceptional performance, sturdiness and simple and safe operation.

- Specially developed motors allowing large grinding capacity at all degrees of fineness.
- Preservation of coffee's unique aromatic oils thanks to uniform, gentle and cool grinding made possible by specially sharpened discs developed by Ditting.

- Continuously variable adjustment of grinding fineness.
- Minimal coffee particles left in discharge tube thanks to built-in vibrating device or manual tapper.
- Efficient bag shaking device distributes grounds evenly into bag and ensures all particles are dispensed.
- Precision grinding discs made of high quality material that is extremely wear resistant. The original discs can be re-sharpened up to 3 times with proper care and maintenance.
- Easy to maintain and clean.
